HealthPartners Physical Therapists specialize in identifying and treating all types of movement problems, to enhance physical health and functional abilities. We treat muscle, bone and joint injuries from sport or work activities, or which may persist after surgery. We also treat disorders of the nerves, balance & dizziness issues, cardio-vascular conditions and wounds that are slow healing.

Our goal is to help you get back to doing all of the things that you want to do, as quickly as possible!

Features of *HealthPartners PT*:

- ◆ We treat BOTH work related & non work-related conditions
- ◆ We treat Honda associates, retirees, spouses and dependents
- ◆ No prescription is needed
- ◆ If your injury is work-related, there is no cost to you
- ◆ We will teach you how to treat yourself, AND how to prevent your injury from happening again!
- ◆ Convenient appointments right before or after work
- ◆ Personal Care – After every visit, we will discuss your response to the treatment and your personal GOALS.

Cost: The cost for on-site physical therapy is the same as it would be at an outside “In-network” PT provider. Contact your insurance plan for details (United Medical Resources, i.e. UMR)

HSA plan: Sessions that last longer than 30 minutes are most typical, and will cost \$85. Treatments that are 30 minutes or less will cost \$45. You can use your *Annual Honda Contribution* or your HSA funds to cover these costs.

The good news is that we are an “In-network” provider. So once you have met your deductible, your insurance will cover 90% of the cost of your PT treatment. You pay only 10%. This means you will pay only \$8.50 or \$4.50 per visit after your deductible is met!

HRA plan: You will have a co-pay of \$40.00 for each visit, which must be paid by credit card. Co-pays cannot be refunded to you, and do not count towards your deductible. However, copays DO count towards your annual OOP (out of pocket) maximum. You can use your *Annual Honda Contribution* to help cover these costs, if you like.
